CAMPING LANTERN

SOPLAIR **rechargeable LED lantern** with dual colour temperature, 6 to 200 hour battery life and 5 V / 3 A external battery function. IPX4.
SOPLAIR camping lantern
The SOPLAIR rechargeable LED lantern is designed for indoor and outdoor use. It recharges via USB-C 5 V / 3 A and offers a battery life of 6 to 200 hours depending on the mode selected. Adjustable LED lighting
The lantern offers two colour temperatures. In white (5700 K), the luminous flux varies from 20 to 450 lm. In warm (2200 K), it varies from 15 to 350 lm.
The intensity can be adjusted as needed.
Rechargeable battery and external function
A full recharge takes approximately 3 hours via USB-C 5 V / 3 A.
The built-in lithium-ion battery is a Li-ion 18650 – 3.7 V – 5200 mAh (19.24 Wh) type.
The lantern has an external battery function with a 5 V / 3 A output for charging devices.
Design and protection
The lantern is made of metal and weighs 479 g.
It can be hung up and has an IPX4 protection rating.
It comes with a bag and a charging cable.

- **Dual colour temperature**

- **USB-C 5 V / 3 A charging**
- **5 V / 3 A external battery function**

SOPLAIR

PRODUCT INFORMATION	
Designation	Camping lantern
Reference	Ref. 863102
Length	12.6 cm
Width	12.6 cm
Height	22.3 cm
Power supply type	5200mAh lithium battery
Rechargeable	Yes
Charging time	≥ 3 hours
Autonomy	Up to 200 hours
Luminous flux	15~350 Lm (2200K) 20-450 Lm (5700K)
Materials	ABS / PC / Metal / Bamboo
Colours	Black
Net weight	0.479 kg

REFERENCING & LOGISTICS DATA	
EAN code	3700628289371
Packaging	Box Frs
quantity per carton	8
gross packaging weight (kg)	0.50
packaging dimensions (L x W x H)	15.50 x 15.50 x 25.50
