

THERMOCOVER

The Thermocover range is manufactured in France, with a **fully waterproof multi-layer complex**.

With its 6 technical layers, our protective covers act as a real insulating barrier in summer and winter. Soplair Thermocover will protect you from temperature variations, improve your comfort by eliminating condensation inside your vehicle and preserve your privacy. Our solutions will prevent UV rays from damaging your dashboard.

KEY POINTS

PROTECTION

Barrier against temperature differences. Optimisation of your comfort.

PERFORMANCE

Waterproof, resistant and strong, made of a PVC outer fabric and anti-scratch.

ENTRETIEN

Easy cleaning with a water hose or simply with a damp sponge.

BI-COLOR

2 colours on both sides for quicker installation.
