

# SOPLAIR

## INTERIOR INSULATION

### **THERMOBACK** A 2 IN 1 SOLUTION

The thermoback is a rear protection for vans. **Consisting of a mosquito net and a removable multi-layer insulation**, Soplair Thermoback is a dual function accessory essential for your comfort. Thanks to its insulating properties, it will protect you from the strong heat in summer and the cold in winter. Its opacity will protect your privacy. If you remove the insulating layer, you will find a real mosquito net. In summer you can ventilate your vehicle. The mosquito net is equipped with a **zip allowing access to your luggage compartment**.

#### KEY POINTS

##### **PRACTICE**

With its dual function, it reduces space requirements.

##### **PROTECTION**

Barrier against temperature differences.  
Optimising your comfort.

##### **PERFORMANCE**

Reinforced aluminised polyester finish, blocks and reflects the sun's UV rays.

##### **FIXING**

Fixing inside the vehicle with Tenax pressure.

## Rear protection for panel vans
