

# SUNSHINE

The Sunshine hard-top roof tent by SOPLAIR is designed to be fitted on the roof of a vehicle. It combines a hard shell with a polycotton fabric to provide a raised sleeping area for several occupants.

## STRUCTURE AND DESIGN

The tent is fitted with a rigid shell made from ABS + PC. The lower part of the shell is made from ABS with a gloss finish. The fabric is made of polycotton with a weight of 320 g/m<sup>2</sup> and a 3000 mm PU coating. A 160 g/m<sup>2</sup> polyester rain cover with a 10,000 mm PU coating is integrated. The set comprises a grey fabric and a black shell.

## SLEEPING AREA AND INTERIOR LAYOUT

The sleeping area measures 143 x 220 cm. It is designed to accommodate 2 adults and 1 child. The tent includes a foam mattress with a removable cover. Inside, there are two storage pockets and hooks for hanging a camping lamp. A lamp is supplied.

## OPENINGS, VENTILATION AND FEATURES

The tent features a semi-automatic opening system with four gas struts, protected by fabric. The openings include two doors and several windows fitted with flaps and mosquito nets. An external mosquito net runs all the way round the tent, aiding ventilation. Each long side features a black awning, slots for metal poles and a metal eyelet. Fasteners allow the openings to be held in the open position. A 2.3 m aluminium ladder with a carry bag.

## PRODUCT SPEC+

- Rigid ABS + PC shell
- 320 g/m<sup>2</sup> polycotton fabric
- Sleeps 2 adults and 1 child
- Semi-automatic opening system
- Low profile when closed

## PRODUCT FEATURES
